

# Download Computational Electromagnetics

Computational electromagnetics, computational electrodynamics or electromagnetic modeling is the process of modeling the interaction of electromagnetic fields with physical objects and the environment. Applied and Computational Electromagnetics. Welcome to the ACE research group at the University of Liège in Belgium. We are located in the Montefiore Institute, home to the Department of Electrical Engineering and Computer Science. Welcome To The ACES Website The Applied Computational Electromagnetics Society (ACES) provides a forum for issues relevant to numerical modeling in applied electromagnetics. Publication Charges: Members: \$200 Non-Members: \$250 Corresponding authors should be active members of the society at the time of submission and the time of publication in order to receive the reduced charge.
