

Download Construction Cost Estimating For Project Control

Construction Cost Estimating and Cost Control from Columbia University. This course introduces the types of cost estimation from the conceptual design phase through the more detailed design phase of a construction project. Therefore, the theme for this year's Event is "Cost Estimating and Project Control: Closing the loop". A title that reflects the necessity of bringing estimating and project controls closer together.-- Developing the cost plan in liaison with the project team as design and construction progress. At all times it should comprise the best possible estimate of the final cost of the project and of the future cash flow. Adherence to design freezes will aid cost control. Project Control Quotes to Consider: ... construction estimates for government projects in the state of California must be prepared by, or under the direct supervision of, a Certified Professional Estimator. ... on iTunes to learn more about different certifications (e.g. Certifications in Cost Controls, Certifications in Cost Estimating ...
