

Download Diabetes And Related Disorders

Necrobiosis lipoidica diabetorum is a skin disorder also known as necrobiosis or NLD and can be associated with diabetes, although not exclusively so. NLD is very uncommon, affecting only 0.3 per cent of all people with diabetes. Diabetes and Related Disorders. This module is concerned both with the aetiology, epidemiology and demography of all types of diabetes mellitus. Diabetes and eating disorders. Because both diabetes and eating disorders involve attention to body issues, weight management, and control of food, some people develop a pattern in which they use the disease to justify or camouflage the disorder. This book provides the reader with comprehensive information on the interactions between diabetes and a wide range of comorbid conditions and on disease management in such patients. It has the aim of
