Fundamental aspects of materials science in space : proceedings of symposium 9 of the COSPAR twenty-fourth plenary meeting held in Ottawa, Canada, 16th May-2nd June 1982. Space exploration - Space exploration - Science in space: In the decades following the first Sputnik and Explorer satellites, the ability to put their instruments into outer space gave scientists the opportunity to acquire new information about the natural universe, information that in many cases would have been unobtainable any other way.
