

Download Geography Of Life & Death

For poor Americans, the place they call home can be a matter of life or death. The poor in some cities — big ones like New York and Los Angeles, and also quite a few smaller ones like Birmingham ...G apminder is a wonderful resource for an overview of all manner of things geographic. The link below will take a few minutes to load, but should then show how Mexico's GDP/person (on a purchasing power parity basis) and life expectancy have changed since 1800. Facts on Innocence: Since 1973, 153 people have been exonerated from death row. Many of these individuals were convicted based on flawed evidence or testimony. The good news is this discrepancy can be changed. Examining life expectancy by county allows for tracking geographic disparities over time and assessing contributing factors.
