Blood, sweat, tears? Classic bodily fluids. And then there's mucus, spit, semen, and urine—well known to juvenile minds everywhere. But blood, for instance, only makes up 9% of your total ...Dr. Strangelove or: How I Learned to Stop Worrying and Love the Bomb, more commonly known simply as Dr. Strangelove, is a 1964 political satire black comedy film that satirizes the Cold War fears of a nuclear conflict between the Soviet Union and the United States. Back in Ripper's office with gunfire sounding in the background, General Ripper puts a comforting - and menacing - arm around a worried Mandrake's shoulder, revealing his completely paranoid, psycho-sexual, psychotic lunacy. One of my high volume referring doctors uses a lab which does not calculate the microalbumin to cr ratio. It always stops me in my tracks when I see the values.
