

# Download Remstar Plus Clinical Manual

The PR Plus CPAP machine is an intelligent solution that provides the highest level of comfort. New System One technologies like Humidity Control with Dry Box and Resistance Control for use with any mask, all are helping users achieve effective therapy. The 'Basic' model looks and feels the same as the Plus or Pro, but has limited Ramp time. It also does not have C-Flex capabilities. Resironics has redesigned their sleep therapy system to give patients more of what they want. Resironics REMstar Pro M Series CPAP with C-Flex, Humidifier, and SmartCard is available now at CPAP Supply USA. The PR System One REMStar 60 Series Pro with Bluetooth is designed to relay sleep results to the user by connecting to Resironics' SleepMapper app. Download SleepMapper on an apple or android smartphone or tablet for easy accessibility.
